Safety Science 19 (1995) 79–80

safety science

Contents Volume 18

Vol. 18, No. 1 (August 1994)

Editorial v
A case-control study of possible risk factors in the causation of occupational injury
R.T. Gun and C.F. Ryan 1
Immigrants and occupational accidents: A comparative study of the frequency and types of accidents encountered by foreign and Swedish citizens at an engineering plant in Sweden
M. Döös, L. Laflamme and T. Backström 15
Economic assessment of occupational injuries in furniture industries
T. Rundmo and A. Söderqvist 33
The superior slip-resistance of footwear soling compound T66/103
D.P. Manning and C. Jones 45

Book Reviews 61
Forthcoming Events 73
Translations Available 77

Vol. 18, No. 2 (December 1994)

The contribution of knowledge acquisition techniques to the assessment of training needs
P. McGeorge, D. Hands and G. Rugg 79
Can safety risks of blue-collar jobs be compared by gender?
K. Messing, J. Courville, M. Boucher, L. Dumais and A.M. Seifert 95
Five year risk of assault on employees in a psychiatric hospital
L.B. Augestad and L.J. Vatten 113
Some links between accidents, postural load and accessibility in chemical plant maintenance
S. Väyrynen, A. Pekkarinen and V. Tornberg 125
Seat belt legislation: the evidence revisited
J.G.U. Adams 135

Forthcoming Events 153
Translations Available 155

maintenance")
C. De la Garza and A. Weill-Fassina 157
Barriers to the reduction of domestic hot water temperatures
J.A. Clarke, A.E. Waller, S.W. Marshall and J.D. Langley 181
Accommodating to change: Trends in UK occupational safety legislation
H.S. Eisner 193
Implementation of the Seveso directive in Germany – An evaluation of hazardous incident information
H. Schütz and P.M. Wiedemann 203
Integrating analyses of the risk of occupational accidents into the design process Part I: A review of types of acceptance criteria and risk analysis methods
U. Kjellén and S. Sklet 215

Vol. 18, No. 4 (February 1995)

Special Issue: Engineering for Crowd Safety

Introduction 237
Understanding and planning for different spectator crowds
A.E. Berlonghi 239
The investigation of the Hillsborough disaster by the Health and Safety Executive
C.E. Nicholson and B. Roebuck 249
Human induced loading of flexible staircases
N.W.M. Bishop, M. Willford and R. Pumphrey 261
Computer and fluid modelling of evacuation
P.A. Thompson and E.W. Marchant 277
Pedestrian movement
R.J.C. Stanton and G.K. Wanless 291
Safety equipment for passengers on railway platforms
K. Sasamoto and A. Momomoto 301
Major crowd catastrophes
J.F. Dickie 309
Density, velocity and flow relationships for closely packed crowds
R.A. Smith 321
Experiments to investigate the level of 'comfortable' loads for people against crush barriers
R.A. Smith and L.B. Lim 329
